Dear Joe,

I would like to take this opportunity to thank you for the many years of service you have provided our two companies, Verifeye Technologies & Springfree Trampoline.

You and your team were especially helpful during both of our moves. The transfer of our existing phone system and subsequent system upgrade was seamless. The fact that we did not experience any down time was a testament to the commitment you offer your clients. We have always received top notch support from your team regardless of how minor our issue was and your staff have always conducted themselves in a professional manner.

We are very pleased with the work you have provided us the last number of years and continue to count on you and your team for our system requirements.

I would continue to recommend VoicePath to anyone who has a telephone or data project to implement.

Kindest regards,

Maria McNaughton
