August 30, 2006

Dear Joe,

You and your staff are to be congratulated for a very professional job. All of your team were courteous, knowledgeable and a pleasure to work with. In a world where expediency has become the norm it is refreshing to find a team like yours who take pride in all facets of their work.

As a relatively small installation we never felt anything less than important when dealing with your office from installation to training the service was superb.

I wish you every success and you can add us to your list of satisfied customers.

Yours sincerely

Ian Cumming
President & CEO
