Mr. Joe Hozjan
VoicePath Convergence Group Inc.
1621 McEwen Drive, Suite 48
Whitby, ON L1N 9A5

Dear Joe:

Just a quick note to thank you and your VoicePath team. In April 2012 we contacted you to help us move our Head Office from Markham to Ajax. What started off as a "simple move" of our phone system, turned out to be a much larger project due to the many construction issues and delays at our new office. You and your team were more than accommodating during this stressful time and we really appreciated your ability to meet our ever-changing schedule. It is because of your flexibility and guidance during this time, we were able to move in with zero downtime! If only all the other vendors we dealt with during this move were as client-focused as Voicepath.

Also, your expertise in reprogramming and reinstalling our existing system allowed us to become aware of many other useful features for our business needs that we didn't even know we had. We are now able to link to our other offices without any delays which has made our company communication more efficient than ever!

Joe, you are now our go-to company for all of our telecommunications needs and we look forward to continuing to using your service as we continue to grow. Thanks again!

Yours truly,

International Leak Detection Limited

Ms. Vicki Eichhorn
VP of Operations
