Digital Proprietary Telephone

KX-DT680B
KX-DT635B

Offering Plenty of Appealing Features Inside a Digital Phone

A digital phone that incorporates a large LCD screen with a slim design. Flexible function keys with a self-labelling feature offer the most customisation and flexibility for our customers. The large LCD screen also helps to ensure correct operation and improves usability.

Colour LCD

Large Colour LCD KX-DT680B

The 480 x 272 pixel large Colour LCD screen enhances visibility and provides a clear vision.

An image file can be imported to the LCD. This information is always visible to ensure user understanding during use.
Corporate branding or corporate information can be easily shown across the organization by selecting an image of your choice.

Self-Labelling

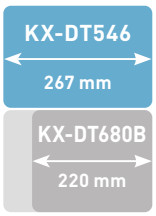
KX-DT6 series phones support self-labeling of the flexible function keys, allowing for easy installation and maintenance.
KX-DT680B:
48 Flexible Function Keys (12 Keys x 4 Pages)
KX-DT635B:
24 Flexible Function Keys (6 Keys x 4 Pages)

Other features of the KX-DT680B/KX-DT635B

Slim Design

The slim design of KX-DT6 series phones provides a new experience for the customer and its smaller footprint compared to the previous KX-DT5 model enables installation in more comfortable locations in the workplace.

Footprint



Other Features

Internal EHS

KX-DT6 phones support Electric Hook Switch (built-in function).

Three-Step Screen Angle Adjustment

Providing three-step adjustment of the phone angle enables use at an angle with little to no glare that is easy to view and use for the user.

Responding to the Increased Use of IP Technologies in the Offices of the Future

KX-DT6 series phones can be installed using the line infrastructure currently in use. Adding the same Panasonic IP terminal to the KX-DT6 series system can realize an increased use of IP technologies in the office while keeping introduction costs down.

A Panasonic terminal that enables the increased use of IP technologies in the office (KX-NT6 Series)

Equipped with the same functions as the KX-DT6 Series, the IP Proprietary Telephone (KX-NT6 Series) enables the use of various IP functions in addition to conventional phone terminal functions, and makes maximum use of PBX functions.

Install in any location that has an internet connection

The NT6 series phones can be used with an internet connection, which makes it ideal for remote working. Connecting via the internet enables use from a wide variety of locations other than offices.
